-We understand that signing up for a CSA program and paying for a product before it is grown is an act of trust on the part of our CSA members. We value and appreciate this trust, and will do everything in our power to honour this by growing a diverse array of high quality, organic produce throughout the season.

-We understand that it is part of our responsibility as CSA farmers to communicate seasonal happenings on the farm with our members. This includes the challenges well as the successes. We commit to doing this throughout the CSA season through face to face contact at CSA pick-ups or through email communication.

-We understand that our farms need our CSA members to exist and flourish, and thus we are receptive to and welcome your feedback. We will do our best to incorporate feedback into following CSA seasons.

We thank you for your support!
